

Nesreen Ahmed Mostafa

Junior Full-Stack Developer

nesreenahmad796@gmail.com

+02 01069028816

cairo, Egypt

Senior Computer Science student with a solid background in programming, databases, and software development. Skilled in full-stack technologies and problem-solving, seeking an opportunity to gain practical experience in a professional environment.

Work Experience

Full-Stack Developer

Nov 2025 - Dec 2025

[E-commerce Store - Academic Project](#)

- Developed a comprehensive full-stack e-commerce platform for a bakery utilizing the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Designed and integrated secure user authentication and authorization flows.
- Built robust RESTful APIs to manage dynamic product catalogs and implemented seamless shopping cart functionality with efficient state management.
- Ensured a responsive and interactive front-end experience across all devices
-

Full-Stack Developer

Nov 2025 - Dec 2025

[Second-Hand Marketplace - Academic Project](#)

- Designed and developed a dynamic second-hand goods marketplace utilizing Angular for a seamless single-page application (SPA) experience.
- Integrated Firebase for robust backend services, including real-time database management, secure user authentication, and cloud storage.
- Implemented core e-commerce features such as dynamic product listings, real-time data updates, and secure user profiles

Freelance Full-Stack Developer

Apr 2025 - Jul 2025

- Successfully delivered "Hawana", a custom full-stack web application tailored to specific client requirements and business needs.
- Managed the end-to-end development lifecycle, from gathering initial client specifications to deployment and final delivery.
- Engineered a scalable backend architecture and an intuitive, responsive frontend to ensure high performance and client satisfaction.
-

Front-End Developer

Sep 2024 - Sep 2024

[Task Management App - Personal Project](#)

- Developed an interactive task management application using semantic HTML5, modern CSS3, and JavaScript.
- Implemented core CRUD operations (Create, Read, Update, Delete) for dynamic task handling and DOM manipulation.
- Utilized browser LocalStorage to ensure data persistence and reliable state management across user sessions

Front-End Developer

Sep 2024 - Sep 2024

[Landing Page - Personal Project](#)

- Developed a fully responsive and interactive landing page using semantic HTML5, modern CSS3

Front-End Developer Trainee

Jul 2024 - Aug 2024

[Ain Shams University \(Academic Summer Training\)](#)

Developed a fully responsive e-commerce web application utilizing core web technologies: HTML5, CSS3, and Vanilla JavaScript.

Implemented dynamic features including a product catalog, interactive shopping cart, and search functionality using JavaScript DOM manipulation.

Core Skills

HTML5 & CSS3, JavaScript (ES6+), Tailwind CSS & Bootstrap, Responsive Web Design, React.js, Angular, TypeScript, Node.js, Express.js, MongoDB, PostgreSQL, Firebase, Git/GitHub, RESTful APIs, Problem Solving

Education

Faculty of Computer and Information Sciences, Ain Shams University Location: Cairo, Sep 2022 - Jul 2026
Egypt

Bachelor of Computer Science

GPA: Cumulative GPA: 3.1
